Keynote

The Future Leadership Challenge – Commitment with Compassion

Prof. Dr. Alma Harris and Dr. Michelle Suzette Jones, Swansea University, England

This keynote focuses on future leadership and what we know about changing leadership practices globally, because of COVID. It draws upon recent international evidence to highlight how leadership is changing in schools and across education systems. The session underlines that there is the opportunity, going forward, for leaders to reset the dial on what matters most, while ensuring compassion for self and others.
